

企業優勢 ENTERPRISE ADVANTAGES

- 第一 包裝袋、彩蓋膜、共擠膜等所有包材均為自主研發、生產，產品質量得到有效把控。
- 第二 企業從原料採購、薄膜生產、產品包裝、物流運輸皆可做到源頭可溯。我公司生產的每一個包裝袋、每一卷片材、每一道工序均有獨立標識，能落實到源頭及各環節。
- 第三 企業產品原材料均為進口材料，最大程度提升產品延展性和可塑性，以及保證了產品質量穩定性。
- 第四 企業採用扁平化管理方式，生產經營遇到的問題，做到當日反映當日解決。
- 第五 企業產品配方與原料均與國外友商相同，價格比同質量產品便宜30%，價格優勢巨大。
- 第六 企業成立時間早，注重研發、技術沉澱成熟，產品穩定性高，不會因為行業內卷而去降低產品的品質。
- 第七 完善的售後服務，公司24小時售後在綫，在合作中客戶反饋問題兩小時內必須回復，24小時內必須解決問題，優先以補貨形式避免影響客戶產品生產進度，盡最大的努力滿足客戶的需求。

First, all packaging materials such as packaging bags, color cover film and co-extruded film are independently developed and produced, and product quality is effectively controlled.

Second, enterprises can achieve source traceability from raw material procurement, film production, product packaging, logistics and transportation. Every packaging bag, every roll of sheet, and every process produced by our company has an independent label, which can be traced to the source and every link.

Third, the raw materials of the company's products are all imported materials, which maximizes the ductility and plasticity of the products and ensures product quality stability.

Fourth, The enterprise adopts a flat management method, and the problems encountered in production and operation can be solved on the same day.

Fifth, the raw materials and production processes of the company's products are the same as those of major foreign brands, and the price is 30% cheaper than products of the same quality. The price advantage is huge.

Sixth, the company pays attention to research and development when it is established in the early stages. The technology is mature and the products are highly stable. The quality of the products will not be reduced due to industry involution.

Seventh, perfect after-sales service. The company has 24-hour after-sales online. During the cooperation, we will respond to customer feedback within two hours, solve the problem within 24 hours, give priority to replenishment to avoid affecting the production progress of customer products, and do our best to meet customer needs.

諸城市華塑包裝有限公司
ZHUCHENG HUASU PACKAGING CO., LTD

企業簡介 COMPANY PROFILE

諸城市華塑包裝有限公司始建於1993年，位於恐龍之鄉中國山東諸城，占地30000平方米。公司專注於食品塑料包裝製品的生產和研發，擁有三十多年的生產經驗和數據積累，產品均採用國際質量標準生產，暢銷海內外衆多市場。公司配備十萬級淨化車間，並擁有聚乙烯薄膜吹塑機組、十色印刷機、高速制袋機、流延共擠設備、幹式復合機、無溶劑復合機、切袋機、七層下層水冷共擠機等各類先進設備，真正實現了從薄膜生產、設計、印刷、復合，到分切、制袋、檢品的一條龍生產工序，并在各環節中貫徹嚴格品控措施。

公司產品主要包括各類食品包裝膜，如高低溫拉伸膜、彩蓋膜、封盒蓋膜、PVDC高阻隔膜，以及仿鋁箔拉伸膜、抗褶皺膜、防霧膜、易剝離膜等功能性膜，還有各類食品包裝袋、醫療包裝袋、聚乙烯膜袋、真空包裝袋、鋁箔袋、拉鏈袋、抗刺穿袋、異型袋、多邊封袋等產品。公司產品品類豐富，廣泛適用於食品、醫藥、化工、服裝等領域的外包裝。公司建立了規範高效的多層經營體系，可提供OEM和ODM代工、品牌直營服務，廣泛和各行業批發以及終端用戶、國內外貿易批發商等合作。

我們期待與您共同發展！歡迎各界朋友前來洽談合作！期待與全球客戶攜手共創美好未來！

Zhucheng Huasu Packaging Co., Ltd. was founded in 1993 and is located in Zhucheng, Shandong, China, the hometown of dinosaurs, covering an area of 30,000 square meters. The company focuses on the production and research and development of food plastic packaging products, with more than 30 years of production experience and data accumulation. The products are produced in accordance with international quality standards and are sold well in many markets at home and abroad. The company is equipped with a 100,000-level purification workshop, and has polyethylene film blow molding units, ten-color printing machines, high-speed bag making machines, cast co-extrusion equipment, dry laminating machines, solvent-free laminating machines, bag cutting machines, seven-layer lower water-cooled co-extrusion machines and other advanced equipment. It truly realizes a one-stop production process from film production, design, printing, lamination, to slitting, bag making and inspection., and implementing strict quality control measures in each link.

The company's products mainly include various types of food packaging films, such as high and low temperature stretch film, color cover film, box cover film, PVDC high barrier film, and functional films such as imitation aluminum foil stretch film, anti-wrinkle film, anti-fog film, easy-to-peel film, and various food packaging bags, medical packaging bags, polyethylene film bags, vacuum packaging bags, aluminum foil bags, zipper bags, puncture-resistant bags, special-shaped bags, multilateral sealing bags and other products. The company's product categories are rich and widely used in outer packaging in the fields of food, medicine, chemicals, clothing, etc. The company has established a standardized and efficient multi-layer management system, which can provide OEM and ODM cooperation, brand direct sales services, and widely cooperate with wholesalers in various industries, end users, domestic and foreign trade wholesalers, etc.

We look forward to developing together with you! Welcome friends from all walks of life to discuss cooperation! Looking forward to working with global customers to create a better future!

■ 高低温拉伸膜

High-low Temperature Stretch Film

採用連續吹脹工藝製成，膜厚度均勻，透明度高，拉伸性能均勻，可適應零下四十度的冷凍和100度至121度的高溫滅菌。有韌性和高阻隔特性，可使食品保質期延長。常用於包裝鮮牛肉、牛柳、雞腿、芝士、肉片、香腸、肉類產品、海鮮產品、豆腐等豆腐類、休閒零食等。可配合各型號1320、420、520及半額定制1全自動熱成型拉伸膜真空包裝機以及拉伸膜封蓋包裝機使用。

■ 高低温彩蓋膜

High-low Temperature Color Cover Film

可定制印刷1到10色，色彩鮮艷且無破皺不氣鼓。低溫彩蓋膜適合巴氏滅菌，也可在零下18°C以下低溫冷凍。高溫彩蓋膜適合高溫滅菌100°C至121°C。可配合各型號全自動熱成型拉伸膜包裝機、拉伸膜封蓋包裝機、各類殺菌釜使用。

Can be customized with 1 to 10 colors, bright colors, no wrinkles and no air leakage. Low temperature color cover film is suitable for pasteurization, and can also be refrigerated at low temperature below -18°C. High temperature color cover film is suitable for high temperature sterilization from 100°C to 121°C. It can be used with various models of fully automatic thermoforming stretch film packaging machines, stretch film capping packaging machines, and various types of sterilization kettles.

■ 仿鋁箔拉伸膜

Imitation Aluminum Foil Stretch Film

公司獨立自主研发，市面唯一可配合自動熱成型拉伸膜包裝機使用的具備鋁箔特性的包裝膜。解決了普通鋁箔拉伸膜拉伸深度不能超過5mm的問題，仿鋁箔拉伸膜可拉伸深度為10-50mm。產品成有鋁箔膜的特性，提供高透光性和阻隔性，可耐巴氏殺菌和121°C高溫滅菌。廣泛適用於牛羊羊肉、禽類的熟肉製品、海產肉製品、火腿、香腸等需遮光的休閒食品。

The company independently developed and produced the only packaging film on the market that has the properties of aluminum foil and can be used with a fully automatic thermoforming stretch film packaging machine. It solves the problem that the stretching depth of ordinary aluminum foil stretch film cannot exceed 5mm. The stretching depth of imitation aluminum foil stretch film is 10-50mm. This product has the characteristics of aluminum foil bags, provides higher light-shielding barrier properties, can withstand 121°C pasteurization and high-temperature sterilization. It is widely used in beef, mutton, poultry cooked food products, pickled and smoked meat products, ham, sausage and other snack foods that require light-shielding.

■ 封盒蓋膜

Sealing Cover Film

產品十色打印，油墨色彩鮮艷真實。封盒蓋膜和傳統的人工貼標方式不同，可以大量的節省人工操作的時間，提供生產效率，降低企業的生产成本。適用於各種形狀的盒裝食品，如：奶茶、豆腐、果凍、水菓、醬鴨魚肉、牛羊肉、臘肉、海鮮食品、海鮮食品等。可配合盒式MAP全自動連續滾筒包裝機、盒式拉伸膜封蓋包裝機、立式包裝盒包裝機使用。

The product is printed in ten colors, and the ink colors are realistic and beautiful. Unlike the traditional manual labeling method, the sealing film can save a lot of manual operation time, improve production efficiency, and reduce the production cost of the enterprise. It is suitable for boxed cover films of various shapes, such as milk tea, soy milk, jelly, fruit, chicken, duck, fish, beef, mutton, yogurt, seafood, marinated products and other products. It can be used with box-type MAP fully automatic continuous atmosphere packaging machine, box-type stretch film sealing packaging machine, and vertical packaging box packaging machine.

■ PVDC高阻隔膜

PVDC High Barrier Film

有優異的阻隔性、耐熱性、化學穩定性，可經巴氏殺菌和121°C高溫滅菌。對氧氣、二氧化碳、水蒸氣、異味有較強的高阻隔性。耐各種化學物質腐蝕，耐酸耐鹼。膜包裝各種形狀的產品，包裝後膜的拉伸與食品不接觸，適用於拉伸膜厚度尺寸不超過2cm的小包裝休閒食品。

It has excellent barrier properties, heat resistance and chemical stability. It can be pasteurized and sterilized at 121°C. It has strong high barrier properties to oxygen, carbon dioxide, water vapor and odor. It is resistant to corrosion by various chemical substances and is suitable for packaging products of various shapes. The edges of the film is easy to tear and does not cut after packaging. It is suitable for small-packaged snack foods with a stretch film depth of no more than 2cm.

■ 抗褶皺膜-邊沿不卷曲膜

Wrinkle-Resistant Film-Edge Non-Curling Film

公司自主研发，經過特殊配方和工藝處理，是市場上唯一可配合拉伸膜包裝機使用的原料能抗褶皺的膜。可零下18°C冷凍，也可巴氏滅菌和121°C的高溫滅菌。根據公司的處理工藝和加工使用，邊沿不發褶皺的效果會更加理想。效果主要表現在：適合對包裝外觀要求高的產品，比如各類熟肉製品、牛肉製品、豆腐類、魚類產品、調味品、火腿原料等。

可配合各型號1320/420/520全自動熱成型拉伸膜真空包裝機、各類殺菌噴淋高溫殺菌釜使用。The company independently developed it, and after special formula and process treatment, it is the only film on the market that can be used with stretch film packaging machines and has anti-curling film edges. It can be refrigerated at minus 18°C, and can also be pasteurized and sterilized at high temperature of 121°C. When used with the company's bottom film and cover film, the edge non-curling and wrinkle-resistant effect will be better, and the effect will be flat and beautiful. It is suitable for products with high requirements for packaging appearance, such as various chicken products, beef, bean products, sausage, condiments, hot pot base, etc. It can be used with various models (1320/420/520) of thermoforming stretch film vacuum packaging machinery, various types of steaming and spraying high-temperature sterilization kettles.

■ 防霧膜

Anti-Mist Film

公司專項研發的主打產品，能有效防止產品在溫度冷熱交替環境中不會產生大量霧氣。可以清晰的觀察到食品包裝的形狀和內容。可適用於鮮肉、鮮牛羊肉、蔬菜、水果、醬肉、肉類等產品的盒式包裝密封覆膜。可配合封蓋包裝機和MAP全自動連續滾筒包裝機使用。

可配合各型號盒式封蓋包裝機、MAP托盤式全自動連續滾筒包裝機、全自動盒式拉伸膜滾筒包裝機、熱封包裝機、封蓋蓋膜機使用。The company specializes in research and development of the main products, can effectively reduce the product in the temperature of the alternating hot and cold environment will not produce a lot of mist, you can clearly observe the state and content of the packaged food. It can be applied to sealing lidding film for box packaging, fresh beef and mutton, meat rolls, vegetables, fruits, chicken and other product. It can be used with automatic continuous packaging machine, automatic box sealing packaging machine, MAP automatic continuous air-conditioning packaging machine. It can be used with various types of box sealing and capping packaging, MAP tray type automatic continuous packaging machine, automatic box sealing packaging machine, MAP automatic continuous air-conditioning packaging machine, heat sealing packaging machine and box sealing and capping film machine.

■ 易揭膜

Easy-Peel Film

易揭膜具有光滑、堅韌耐穿，可進行十色印刷和裝飾，從提高包裝的視覺效果。可以單獨裝袋于包裝，也可以裝於盒蓋膜，還可以配合熱成型拉伸膜機械拉伸膜。可經巴氏滅菌滅菌和121°C高溫滅菌。產品採用優質聚合物製成，確保耐用性和耐用性的完美平衡。專業刀具等鋒利工具可輕鬆剝離。高復的可剝離結構提供了切割耐穿力。保證每次剝離都不會力地剝離，且不會在產品表面留下殘留物。密封耐濕度性能強。可適用於包裝各種奶製品、蛋類食品、醬油品、調味品（如茶葉、咖啡、布丁、麵粉、黃油、調味品、巧克力、芝士蛋糕、米飯、泡麵等）等食品。

The easy-peel film has a smooth and neat appearance and can be printed and decorated in ten colors to improve the visual quality of the packaging. It can be used as a bag packaging alone, a box cover film, or a stretch film with a thermoforming stretch film machine. It can be pasteurized at low temperature and sterilized at high temperature of 121 degrees. The product is made of high-quality polymers to ensure the perfect balance of durability and ease of use. Professional tools such as knives, can be effectively peeled off effortlessly every time without leaving residue on the surface of the container. The easy-peel film has a wide range of adaptability and can be used to package various cheese products, steamed dry goods, marinated products, box packaging (such as ice cream, jelly, pudding, yogurt, butter, condiments, chocolate, cheesecake, rice, curry, etc.) and other products.

■ PET彩袋

PET Color Bags

軟材質包裝透明度高，光澤性強，可抽真空使用。該產品有透明膜，可以觀察食物，可製適合121°C高溫滅菌和經過巴氏滅菌的袋子。PET彩袋也可在裝體打氣氣孔，常用於包裝外袋。由于產品性能比高，可降低用戶的經營成本。因此經常用來大量包裝各類食品肉類食品、調味、調味品、零食等產品，也適合用於製茶、調味品、水餃類、丸子等。可供應各種轉運輸送等產品的包裝，也是理想的休閒產品外包裝材料。

The material bags are highly transparent and glossy and can be used in vacuum. The product has a transparent window, you can observe the food, can be made suitable for 121°C high temperature sterilization and low temperature pasteurization of the bag. PET products can be prepared with air holes on the bag body, commonly used on outer packaging bags. Due to the high cost-effective products, can reduce the user's operating costs, so often used to pack large quantities of various types of food products such as meat products, seasonings, dehydrated vegetable snacks and other products, but also suitable for pre-prepared dishes, seasonings (hot pot food, pick, etc.), such as the supply chain of the transit transport and other product packaging, but also the ideal pharmaceutical products, the outer packaging material.

■ 低温彩袋

Low Temperature Color Bag

產品適合100度以下的低溫滅菌。日常可耐受零下18度的溫度儲存。產品經特殊工藝配合，可以更好的防止食品腐爛。產品透明度高，使產品看起來更天然。十色彩印，色彩飽滿，提高產品的市場通用性。可配合各型號家用小型家用真空包裝機、雙室真空包裝機、工廠連續滾動式真空包裝機、連續滾動式真空包裝機使用。

Product is suitable for low temperature sterilization below 100 degrees. Daily can withstand the temperature of minus 18 degrees storage. The product is compounded by special process, which can better prevent the product from air leakage, the product has high transparency, which makes the product look beautiful and gorgeous, and has color printing, which is colorful and improves the market applicability of the product. Can be matched with various models of single-chamber small household vacuum packaging machine, double-chamber vacuum packaging machine, factory continuous rolling vacuum packaging machine, continuous rolling vacuum packaging machine use.

■ 高温蒸煮彩袋

High Temperature Sterilization Color Bags

產品可以通過100°C至121°C的高溫滅菌，具有强度高、透明度高、柔軟度好、耐用、無溶劑殘留、阻隔性好等優點。經高溫滅菌後產品無脫膠現象發生。可配合各型號家用小型真空包裝機、雙室真空包裝機、連續滾動式真空包裝機、全自動連續滾動式真空包裝機、真空包裝機、各型號高溫蒸氣、噴淋、蒸汽滅菌釜使用。

The products can be sterilized by high temperature from 100°C to 121°C. They have the advantages of high strength, high transparency, good softness, puncture resistance, no solvent residue and good barrier property. No delamination of the product after autoclaving. Can be matched with various models of small household vacuum packaging machine, double-chamber vacuum packaging machine, continuous rolling vacuum packaging machine, automatic continuous bagging vacuum packaging machine, vacuum packaging machine, various models of high-temperature cooking, spraying, steam sterilization kettle use.

■ 真空貼體袋

PET Color Bags

貼體袋是一種可以緊緊貼附在產品表面的包裝袋，採用特殊的材料和工藝。在通過低溫巴氏滅菌滅菌後，貼體袋會緊緊貼合在你想裝的物質上，並形成一周保護層緊密的貼合在食料上，可有效防塵、抗氧化，增強食品和外材的貼實度，產品整體立體感強，可防潮，抗氧化，耐重等。能有效保護產品品質，延長產品的保質期，適用於各種罐頭、熟肉類製品。

Body-fitting bag is a kind of packaging bag that can be tightly attached to the surface of the product, using special materials and processes. After the low temperature pasteurization process, the body bag will fit tightly on the position you want, and form a layer of protective film tightly attached to the ingredients, can be effective in dustproof, antioxidant and enhance the compactness of food and packaging materials. The overall three-dimensional sense of the product is strong, can be moisture-proof, antioxidant, dust-proof and so on. Can effectively protect the quality of the product, extend the shelf life of the product, applicable to a variety of intestines, cooked meat products, etc. It is suitable for packaging machine, and various models of high-temperature sterilizing kettle.

■ 自立袋

Self-supporting Pouch

自立袋底部有支撐，打開底部可以自行站立，底部扁平，能確保袋子的穩定性。我自立袋可十色油墨彩印，密封性好，內置拉鍊密封設計。產品使用便利，可視需要增加隔層，延長產品的保質期。自立袋由于使用便利，外觀整潔美觀，使用簡便靈活，多應用於各類食品肉類食品，如瓜子、薯條、果乾、瓜子等，也可用於日常休閒食品及營養二次包裝等產品。茶日化類、寵物食品類、保健食品類等也經常使用。可配合各型號熱封包裝、密封包裝機、非抽真空包裝機。

The bottom of the self-standing bag is supported, open the bottom can stand on its own, the water the bottom, the more to ensure the stability of the bag. Our stand-up pouches can be color printed with ten-color ink, good sealing, built-in zipper self-sealing design, convenient color printing. Can be added as needed to increase the shelf life of the product. Stand-up pouches due to the convenience of use, neat and beautiful appearance, the use of a wide range of applications, multi-use of types of snacks and dried packaging, such as nuts, seeds, macadamia nuts, pine nuts, etc., can also be used as daily snack foods and the need for secondary packaging of products in the daytime, pet food, health care products are also often used. It can be matched with various types of heat sealing packaging, sealing packaging machine, non-vacuum packaging machine.

■ 抗穿刺袋

Puncture Resistant Bags

抗穿刺袋是PA/PET/PE和PA/PET/PP的加厚結構，能有效降低食品的穿刺，可通過100°C的巴氏殺菌和121°C的高溫滅菌。有很好的耐壓性和抗衝擊性能。抗穿刺袋厚度是0.10、11/0.12/0.13/0.14mm。適用於包裝有尖銳形狀的物品，如瓜子、大米、雞肉、蟹肉、海鮮、貝類、芋頭、馬蹄、牛排等海鮮類產品。

Puncture resistant bags are thickened structure of PA/PET/PE and PA/PET/PP, which can effectively reduce the puncture of food products, and can be sterilized by pasteurization at 100°C and high temperature at 121°C. It has strong ductility and impact resistance. The regular thickness of anti-puncture is 0.10,11/0.12/0.13/0.14mm. It is suitable for packing items with sharp shapes, such as melon seeds, rice, chicken claws, whole chickens, seafood, air-dried ducks, leg of mutton, chicken thighs, steaks and other products with bones.

■ 鋁箔袋

Aluminum Foil Bag

鋁箔袋是由多種材料構成適合在再通過滾筒機械成形的功能性袋子。該產品有很好的通用性，有很好的耐熱性，可耐121°C高溫滅菌，可在真空包裝機上進行抽真空。袋子厚度經過處理，防汙水，有專口密封方便，該產品透光性能強，阻礙氧氣性能強于其他包裝材料，且可彩色印刷。具有保潔、保味、保色等功能。適用於各類肉類製品、海產肉製品、海鮮、香腸類、熟食類、醬菜、豆沙、調味類製品。

Aluminum foil pouch is a functional pouch made from a variety of plastic films laminated and then made by bag making machine. The product has good versatility, good temperature resistance, can withstand 121°C high temperature steaming sterilization, can be vacuumed on the vacuum packaging machine. The bag rounded corners have been treated to prevent sticking hands, and there is an easy-tear opening for easy use. The product has strong performance of light avoidance, oxygen barrier performance is stronger than other packaging materials, and can be printed in color. Excellent ability of preserving aroma, flavor and color. Suitable for all kinds of meat products, cured and smoked meat products, seafood, all kinds of intestines, deli products, sauces, bean paste, seasonings and so on.

■ 异形袋

Special-shaped Bag

產品使用優質材料，可耐低溫滅菌和121°C高溫滅菌。十色彩色油墨印刷清晰，產品的密封性能強，可以依照客戶的需求進行不同形狀不同尺寸的尺寸的定制生產。提供傳統三邊封樣式，可適用於各種小零食、異形包裝需求。可配合各型號熱封包裝、熱封封口機、各型號滾筒包裝機、雙室真空密封包裝機、連續滾動式真空密封包裝機、密封封口機、各型號滾筒包裝機使用。

products use high quality materials, can withstand low-temperature sterilization and 121°C high-temperature sterilization, ten colors ink printing clear, the product moisture-proof and anti-fouling sealing is good, can be customized according to customer demand for different shapes and irregular sizes, breaking away from the traditional three-side sealing style, can be applied to a variety of small snacks, shaped packaging needs. Can be matched with various models of heat sealing packaging, small household vacuum sealing packaging machine, double chamber vacuum sealing packaging machine, continuous rolling vacuum sealing packaging machine, heat sealing sealing machine, various models of sterilizing pot to use.

■ 單面透明袋

One Side Transparent Bag

產品單面透光，可以透過窗口觀察產品。具有優良的耐熱性和耐性，無接合膠痕現象。可抽真空，有很好的耐濕性，可適用於高溫121°C和低溫巴氏滅菌的粉劑。加厚食品袋包裝，可直接接觸食物。耐氣味、水蒸氣、氣味、光線等有良好的阻隔性。適用於風味食品、農產品、五谷雜糧、海產品、全圖類、電子產品、幹果、茶葉的真空包裝，也適合餅乾、膨化食品等的自立袋包裝。

The product is lightproof and transparent on one side, so the product can be observed through the window. Excellent folding resistance and toughness, no crumpling and cracking phenomenon. Can be vacuumed, has good temperature resistance, can be applied to high temperature 121°C and low temperature pasteurization environment. Thickened food grade packaging bags, can be directly touched with food. Good barrier to gas, water vapor, odor and light. Suitable for vacuum packaging of flavor food, agricultural products, grains and cereals, spiced and steamed food, metals, electronic products, dried fruits, tea, also suitable for cookies, puffed food daypack packaging.
